

FIRST-TIME SERVICE AGREEMENTS FOR NEW ATOX[®] MILL & KEY ATOX MILL COMPONENTS

Maximise availability and reduce your operating costs with a service agreement on FLSmidth Cement key ATOX[®] Mill and key ATOX mill components

Maximise your ROI

Purchasing an ATOX Mill or engineered part is an investment in the future of your plant. Our service agreements ensure you get the most from your investment, with greater equipment life, performance and cost-efficiency.

5 YEARS WARRANTY On key ATOX® Mill parts and selected gear parts

Key Benefits

- Extend your warranty on key components
- Increase ATOX® Mill availability
- Cut maintenance costs
- Increase ROI and reduce total cost of ownership
- Optimise ATOX Mill gear maintenance
- Upskill your operators

The service agreements are structured as yearly subscriptions, making it easy to include in your plant's annual maintenance budget.

Extended warranty on key components

Our first-time service agreements give you an extended warranty on key ATOX® Mill parts, helping you save costs on repairs and eliminate the risk of long lead times and associated downtime. This applies to key components purchased with ATOX Mill or replaced on installed ATOX Mill.

ATOX® Mill components with extended warranty*

- ATOX mill grinding table (5 years)
- ATOX mill roller assembly* (3-5 years)
- ATOX mill yoke (5 years)
- Classifier shaft assembly (5 years)
- Selected gear parts (5 years)

Warranties are applicable only with 5-year service agreement including on-site inspections and online condition monitoring services

*Wear/consumable parts are not covered by the extended warranty.

Preventive maintenance and predictive analytics to increase ATOX Mill reliability

Online condition monitoring services help you reduce or even eliminate unexpected downtime. The service also includes expert insights that enable you to optimise the timing and frequency of hardfacing and liner replacement. Together, these services optimise maintenance planning and reduce operating costs. Even better, your team gains by working with our experienced technicians, so they can operate the ATOX Mill and its components at optimum performance levels.
